

## **June 2019: Derry Township 69kV Power Line Rebuild Project Update**

The design for the underground route near Homestead Road and Derry Township school is almost complete, and we plan to start construction in this area middle of June. All property owners affected by construction were notified.

The remainder of the line is being engineered. During this time, we will continue digging test holes and sampling the soil. We partnered with Derry Township to minimize impact of our work during large community events, like during Vice President Mike Pence's visit.

We do not expect to start construction on the remainder of the line until Spring 2020. The aboveground line will be removed once the underground line is complete.

We'll continue to keep you updated on the project by sharing monthly updates in the Derry Township eNews and sending letters bi-monthly. As construction begins, we will also provide door-to-door outreach to impacted residents.

For more information or further questions, please visit our website at [www.pplelectric.com/HersheyProject](http://www.pplelectric.com/HersheyProject), email [HersheyProject@pplweb.com](mailto:HersheyProject@pplweb.com) or call us at 717-560-2484.

We appreciate your continued support.
